

- **Micro controller lab**

Subject Code: 10ESL47

About Lab:

- Microcontroller Play a very important role in the design of embedded systems such as Elevator, Washing Machine etc.
- In this lab 8051 assembly language programming is practiced along with some

Interfacing experiments such as DC, stepper motor control, LED/LCD display using AT89C51 microcontroller using keil uVision3 (cross compiler).

Lab Instructor: Vedavathi

Phone.No:9844286433
